Subject: New BW Query Available: Purchase Orders by Contract
Audience: MM Users

The BW Query **Purchase Orders by Contract (ZMM_ZSRM_C06_Q0002)** should be replaced with the following query. Please note the following details.

Query Name: Purchase Orders by Contract

Technical Name: ZMM_ZSRM_C06_Q0002_AGY

Description: This query is designed to help you calculate your spend analysis by generating purchase order data created against contracts. The only changes to this replacement query are that the report uses PO Purchasing Group as an authorization variable, and users should now be able to execute the report.

Role: Requisitioning and Solicitation

The old query will be deleted. Please forward this information to your staff immediately.

If you have any questions for concerns, please contact the SCEIS Help Desk.

Thank you,
The SCEIS Team
